FALL CAMPAIGN
OF INDEPENDENT
FORCES IN VIEWMeeting Called for Grand Forks
of Anti-Townley Candidates
to Discuss Methods

INVITE ALL CANDIDATES

Both Republicans and Democrats
Are Asked to Attend Meet-
ing Called by KnoxPlans for the fall campaign to be
waged against the Nonpartisan league
candidates by independent forces will
be discussed at a meeting which will
be held in Grand Forks, on July 22.A call for a meeting of all anti-
Townley candidates for office, Repub-
lican and democratic, are asked to
attend the meeting by C. E. Knox, chair-
man of the joint anti-Townley com-
mittee of Twenty-one.Mr. Knox's call for the meeting fol-
lows:

Committees Join

"By virtue of authority vested in me as chairman of the joint anti-Townley committee of Twenty-one created by the anti-Townley Republican and Democratic state central committees and the state executive committee of the Independent Voters association in response to an invitation from the state meeting of that association held at Grand Forks on Feb. 5th and 6th this year, a meeting of the said committee of Twenty-one is hereby called to convene at the City Hall in Grand Forks at 10 o'clock a. m. on Thursday, July 22, and to remain in session until Friday evening or as much longer as may be necessary to properly attend to all matters that may come before the meeting.

To Plan Fight

"All anti-Townley candidates for state office, Republican and Democratic, that were nominated at the June primaries, are urgently requested to meet with said committee at the same time and place indicated. The purpose of this meeting being to work out details incident to the prosecution of a campaign to redeem the state from Townleyism and Socialism at the general election in November.

"Suggestions that may be helpful in framing a united front, whether presented in person at the meeting or in writing by mail in time to be presented at the meeting, will be appreciated."

SHOOTS MAN AND
WOUNDS HIMSELF

Mason City, Ia. July 16.—Fred Rasmussen, 24, in a fit of jealousy shot Lafe Shaffer late last night through the mouth and then shot himself through the forehead. Both are at a local hospital and it is doubtful they will recover.

PRAYER OFFERED
FOR SETTLEMENT
OF IRISH RULE

London, July 16.—Cardinal Bourne in the course of services at Westminster cathedral in commemoration of the beatification of Oliver Plunkett, who suffered martyrdom at Tyburn in 1681, made a special appeal for the prayers of the Catholics "for the prompt, speedy, just and permanent settlement of the destinies of the Irish people."

"Never has the outlook appeared more menacing than at the present time," the cardinal said. "Notwithstanding the amazing changes of the last few years the future of Ireland is now so clouded with anxieties sorrow and perplexities that the whole world is gazing at the portent, wondering and aghast.

"We implore God with the urgency which our need must necessarily inspire, to bring lasting harmony out of the existing confusion."

REED WILL NOT
DEBATE LEAGUE

Kansas City, July 16.—Senator James A. Reed of Missouri declined a challenge from Charles M. Hay of St. Louis, issued at Springfield, Mo. today, for a joint debate on the league of nations.

Mr. Hay is a Democratic candidate for United States senator. Senator Reed in answering Hay's challenge accused him of refusal to answer questions relative to the league of nations addressed to the Republican and Democratic senatorial candidates from Missouri by the senator last night.

PRICE DECLINE
NOTED IN LONDON

London July 16.—The Economist index number stands at 7347 at the end of June, compared with 8199 at the end of May. A decline occurred in a group of commodities included in the compilation, with the exception of cereals, in which oats advanced. The average price level is now equal to that of last January.

Textiles showed the heaviest decline the break amounting to 9 percent on the month. The fall in raw cotton was only partially reflected in the prices of yarns and cloth.

Further car case iron has caused a small rise in silver. Given a favorable season resumption of Indian buying of silver seems probable.

Black Rust Hurts Wheat in Some States
But None Found in North Dakota

St. Paul, July 16.—Black rust is in southern Minnesota and eastern South Dakota and in some places has done considerable damage to the wheat crop, according to a statement issued today by President Quamme, president of the Federal land bank, of St. Paul.

Mr. Quamme's statement followed a thorough investigation and although the yield has been cut down the northwest will still harvest one of the biggest wheat crops it has ever harvested, he said.

"There is no rust in Montana, North Dakota or northern Minnesota," said Mr. Quamme. "And I do not think it will spread now. The cool weather saved the situation and wheat is coming through fine. The yield in Minnesota will be disappointing and some of the wheat will be light and chaffy, due to black rust."

THREE MEXICAN
GENERALS FACE
COURT MARTIALPresident Huerta Asserts Gon-
zales is "Intellectual Dicta-
tor" of Revolt Plot

TWO OTHERS ARRESTED

Gonzales Formerly Was Candi-
date for Mexican Presidency
But Failed to Win

San Antonio, Tex., July 16.—Amplification of official reports by Gen. Pablo Gonzales, former candidate for the Mexican presidency, had to be arrested at Monterey at the orders of provisional president de la Huerta, on the ground that Gonzales was the "intellectual dictator" of an alleged disloyal movement was being sought by Mexican consular officials today.

Announcement of the arrest of Gonzales together with Generals Carlos Garcia and Juan M. Santos, was made last night in a communication from President de la Huerta which also stated that a court-martial for immediate trial of the generals had been named.

ADVISER NAMED
FOR DISABLED
WAR VETERANSP. G. Harrington Will Aid Men
from Burleigh, Emmons, McIn-
tosh and Logan Counties

P. G. Harrington adjutant of the American Legion post, has been named vocational training adviser for Burleigh, Emmons, McIntosh and Logan counties.

Mr. Harrington will go to Minneapolis Sunday to confer with the northwestern headquarters on methods to be taken to insure all disabled ex-service men in these four counties the proper assistance in making application for vocational training.

The northwestern headquarters expects to make a special campaign in the next 60 days to clear up all cases and reach every disabled ex-service man who wishes government assistance in educational training.

EXPECT BUMPER
CROP IN IOWA

Des Moines, Iowa, July 16.—The abundance of moisture now in the ground will enable corn to stand considerable drought and yet mature a good crop if future sunshine and temperature are favorable. The weekly crop bulletin for Iowa issued today by the United States weather bureau says abundant rains and moderate temperatures for the week ending July 13 were generally favorable to crops.

In spite of the cool weather corn has made excellent progress, is farther advanced than usual in the central and northern districts, and only about a week behind in the southern parts of the state.

Good yield and quality is being reported from winter wheat harvesting now in full progress. The crop of early oats now being harvested in the southern part of the state is reported better than expected. Late oats are promising.

WILL PROBE FOR
GAS AND OIL

Territory around Ryder, Ward county will be developed for oil and gas, it was said by representatives of the Tri-State Oil and Gas company who appeared before the state banking board. The company is to take over interests of the company now operating in the field it is said, and extent operations.

MARRIAGE OR JAIL—
SHE PICKED FORMERDENVER Judge Rice here de-
bated on the bench. Marriage,
he considered was as bad for
some people as jail and yet
"She's a sick bootlegger
judge," said the attorney of
the case.

When do you expect to get married and will you quit selling hooch? His Honor inquired.

Tomorrow and I will remain
wed Anna Koch.

Give you full then said the
court. Mary of get judged

PREDICT STREET
CAR SERVICE WILL
SOON BE RESUMED

Chicago, July 16.—Street car service here shut off almost completely yesterday by the strike of 200 electrical employees will be at least 50 percent normal, officials of the street car company declared today. The places of the strikers were being filled as rapidly as possible, according to Williston M. B. general manager.

TALK CONTESTS
IN SOME CASES
OF CLOSE VOTEPractically Complete Unofficial
Returns Disclose Small
Majorities

Several contests of nominations in the recent primary may be instituted as soon as the state canvassing board which meets July 26, has announced the official vote, it became known today.

Practically complete unofficial returns—some county precincts still are unobtainable for compilation 15 days after the primary reveal very small majorities of some Nonpartisan league candidates on the state ticket against the independent Republicans.

State Senator Beck already has instituted a contest in Sheridan county. It is understood, as the result of the use of blanket stickers which are prohibited by law, by Nonpartisans in that county. Senator Beck was defeated by a small number of votes, on the face of the returns. Blanket stickers are said to have been used in other counties.

Carl Kostler, state auditor, and independent Republican candidate, was defeated by 1,166 votes on the face of practically unofficial returns. Williston Lemke, considered the league leader in the state received a majority of less than 2,500 for attorney general.

C. W. McDonnell, nominated for railroad commissioner by the league, is held to be disqualified by his opponents because he voted for the increase in pay for the commissioner, a member of the legislature and is constitutionally prohibited from being elected to an office for which he aided in increasing the emoluments before the expiration of his term as a legislator. He was the high league candidate.

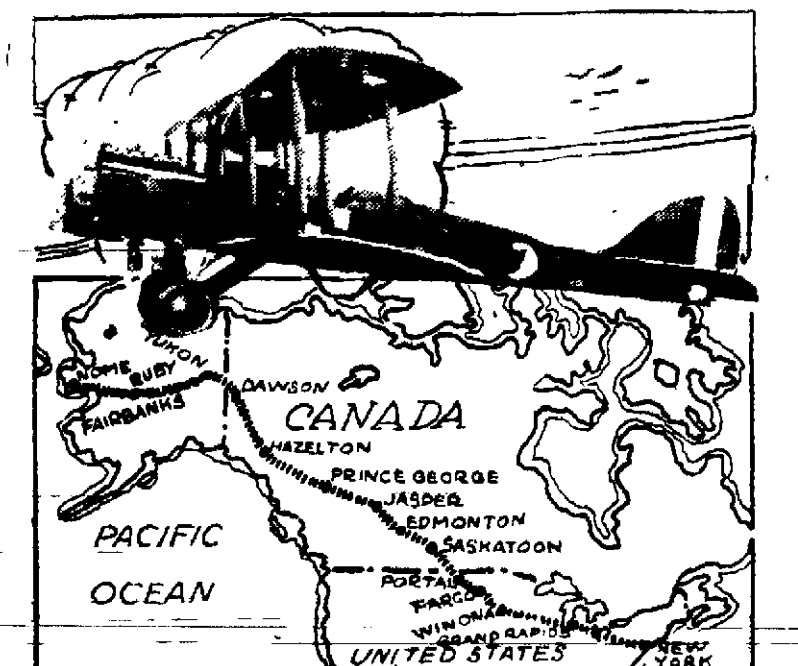

Frank Millhollan next league candidate, had a majority of but 936 over E. J. Krueger, independent Republican.

Independent Republican leaders believe that a contest might result in the discovery of enough illegal cases. Nonpartisan votes by the use of blanket stickers, to overturn the majority of two or three league candidates in the primary.

TOOK LODGE FUNDS
IS CHARGE MADE

Stillwater, Minn. July 16.—Fritz Veigler, of Stillwater, national treasurer of the Sons of Herman, pleaded not guilty when arraigned in municipal court here today on a charge of embezzling lodge funds exceeding \$5,000. His hearing was set for next Monday at 10 a. m.

LONGEST FLIGHT TO MAKE MAIL CHARTS

HARDING DOES NOT SWAY FROM ORIGINAL PLAN

"Front Porch" Campaign Still High in Favor With Republican Nominee

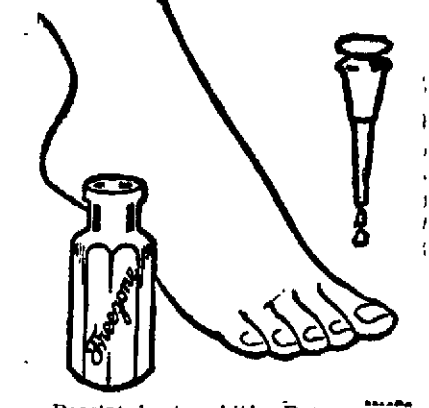

HAYS IS CONFIDENT

Marion, Ohio, July 15.—Should Senator Harding abandon his front porch and attempt to stump the country, the speeches he would be able to make

SAY "DIAMOND DYES"
Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes." Easy directions in package.

"FREEZONE"

Lift Off, Corns! No Pain!

Doesn't hurt a bit! Drop a Freezone on an aching corn, instantly that corn stops hurting then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn soft corn, or corn between the toes, and the calluses, without soreness or irritation.

would not be a drop in the bucket of demands for him. More than fifty requests for him to speak on important occasions to great audiences have thus far come to his office, and they are pouring in at the rate of more than a hundred daily. They come from every part of the country, from Augusta, Me., and Miami, Fla., and all the way thence to Seattle and the Pacific coast.

But there is no change in the program. The nominee insisted on this, after a day's visit with National Chairman Will H. Hays, and the chairman endorsed his judgment. They both explained that nothing is more shifting than a political campaign, no decision now can be irrevocable, and that July cannot dictate to October. But after their consideration of the whole subject Senator Harding when asked about the possibilities of changing the plan said:

"Both our affections and our judgment still hold us to the plan as first announced."

Hays Pleased
Mr. Hays later said: "It has given me the very greatest pleasure and deepest satisfaction to see the cordiality of greeting and sincerest home appreciation of Senator and Mrs. Harding by the congregation with whom they have worshipped for so many years. It means very much, indeed."

"It has been inevitable, of course, that we have discussed some phases of the political situation during our visit. I can only say that every day more and more I congratulate the party and the country on Senator Harding's nomination."

Mr. Hays left here for New York, where he will spend a week, returning to Chicago for a week there, and he will oscillate in substantially this fashion throughout the campaign.

Mr. Daugherty declared he expected the Democrats to centre their most determined efforts in Ohio and Indiana.

"New York, I think, is perfectly safe," he added, intimating that he didn't think the Democrats would regard it worth while to expend much effort there, but he emphasized the belief that they will spare no effort in Ohio and Indiana.

West Va. Situation
Concerning West Virginia, where the situation at present is mixed, Mr. Daugherty said that George Harris of the Ohio State executive committee has just returned from a careful investigation of conditions there. It is not yet determined who has been nominated for Governor and may not be for some time, a court proceeding even may be necessary to settle it conclusively. It happens, however, that all the factions are enthusiastically for Harding, a fact which is proving help in ironing out local difficulties.

"There has even been the possibility of a third ticket in the State," Mr. Daugherty said, "and if that should happen the Republican electoral ticket would be on it."

Mr. Daugherty expressed himself as highly pleased with conditions thus far in the Ohio fight.

SOUTHERN STATE ADOPTS RULE TO BAR MENNONITES

Jackson, Miss., July 15.—The Democratic state executive committee yesterday adopted a resolution opposing the proposed migration of a thousand Mennonites from Canada to Southern Mississippi.

The resolution declares the Mennonites to be "undesirable citizens," and objects to their settling in Mississippi on the following grounds:

"First, they refuse to allow their children to attend public schools."

"Second, they speak and write only German, which is equivalent to thinking in German."

"Third, they are composed wholly of conscientious objectors who refused to fight when Canada was being bled by the world war."

TELLS JUDGE HE'S PICKPOCKET AND GETS FIVE YEARS

Chicago, July 15.—Morris Cohen, antecedent and residence unknown, was arraigned before Federal Judge K. M. Landis on a charge of violating the Harrison drug act. He had been arrested by John Dennon, chief of the narcotic squad.

"What do you do for a living," asked the judge.

"I'm a pickpocket," replied Cohen.

"So?" said the judge. "What do you do when you are not working at your trade?"

"A little shoplifting on the side," was the answer.

"Desirable citizen, huh?" remarked Judge Landis. "Five years in the federal penitentiary for violating the Harrison act."

CAR SHORTAGE MAY INCREASE WHEAT PRICES

Four Dollar Wheat is Near Prospect in Kansas, Says Report

ENORMOUS RAILWAY TASK

Eastern Cities Facing Prospect of Food Pinch, Says Traffic Man

BY EDWIN D. RIDER
Kansas City, July 15.—The car shortage threatens not only to bring a coal famine but to delay moving of crops and food with serious consequences in many cities.

The car shortage today is the worst veteran railroads have seen. Four-dollar wheat is predicted.

With the Kansas wheat crop, now estimated at 130,000,000 bushels and with 20 per cent of last year's crop still on hand, the railroads entering Kansas face the task of moving 175,000,000 bushels of wheat.

Gloomy Outlook

Fifty thousand cars would start the wheat east. But the 50,000 cars ARE NOT ON HAND—OR EVEN ON THE WAY.

"I don't believe 50 per cent of this wheat will be moved before the first of the year," said the traffic chief of one of the big roads entering Kansas.

One year ago at this time his road alone had 20,000 cars stored in this section to get out wheat. Today he says it hasn't a car! Most of the other roads are in the same fix.

"Why, they are boarding up cattle cars and shipping wheat in them!" said the official. "They're shipping wheat from Kansas every day in coal cars! But cattle cars and coal cars—and a few box cars—won't be able to get enough wheat to the country. It's critical."

Four-Dollar Wheat

The Kansas-Missouri joint grain commission has returned from Washington with a gloomy report—no promise of more cars from the Interstate Commerce Commission.

"The transportation problem is a ghastly thing," said J. C. Mohler, secretary of the Kansas state board of agriculture, on his return from Washington with the commission. "Eastern cities now are just one day ahead of a coal famine."

Meanwhile, the price of wheat is soaring. The first carload of wheat arrived in Kansas City the other day. It sold for \$3.85 a bushel, a record "opener." Four-dollar wheat is certain, grain men say.

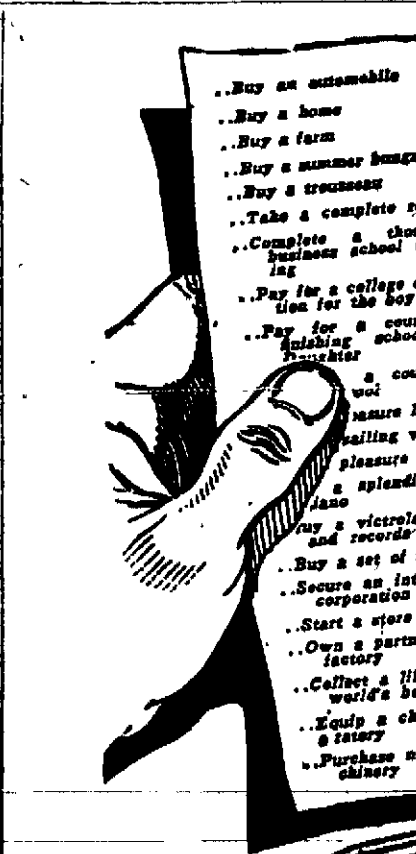

DEALERS SEE SHORT HAY CROP

Cincinnati, July 15.—Members of the National Hay association, numbering 1,500 delegates who opened a three day convention here today, brought with them a display of every sort of hay grown in the United States. F. I. Young, Lansing, Mich., president of the association, made the opening address.

President Young disagreed with the report of the government that the new crop of hay will aggregate 111,000,000 tons. He thinks 80,000,000 tons will be nearer the true figures.

MAY PURCHASE LAKE GROUNDS

Jamestown, July 15.—The proposed purchase of the Spiritwood Lake chautauque grounds by the Stutsman county commissioners to serve the double purpose of memorial to the soldiers of Stutsman county and a big public playground met with the unanimous approval of the members of the Jamestown chamber of commerce at the regular July meeting. President G. M. Springer presided at the meeting and introduced the matter of the proposed purchase, explaining that he had been requested to place the matter before the chamber.

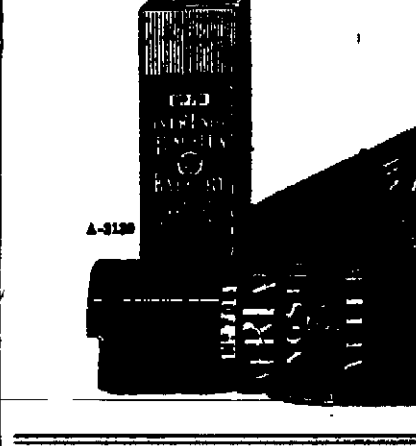

Check your choice
WHAT would you do—how would you use the money if you won the \$3,000.00 first prize in the Eveready \$10,000.00 Cash Prize Contest—or the \$1,000.00 second or one of three \$500.00 cash prizes?

Would it be an automobile—a home—a farm—a business? Check your choice. Determine to win the money in this great cash prize contest.

Then think of this! 104 people will surely get cash awards. 104 opportunities for you to win money to buy what you always wanted but never had enough money to get. Trying is easy—just an interesting study of a human-nature picture.

First see the Contest Picture in a dealer's window; then, get a free copy of the Contest Picture. Contest Rules and information inside the dealer's store. Your answer will be judged by the editors of Life. Should two or more contestants submit the identical answer selected by the judges for any prize, the full amount of that prize will be paid to each.

No obligation—no delay—start now and win money for the thing you want. Contest ends Midnight, August 1, 1920.

300,000 TAKE REFUGE AT CONEY

New York, July 15.—Bath house charges were doubled at Coney Island Sunday when about half of the 300,000 visitors took refuge from the heat in the ocean. Prices leaped to \$2 a room and upward after noon. Sometimes the charges were trebled.

James Cohen of 214 South First St., Brooklyn, was arrested for disorderly conduct when he protested because a policeman interfered with his business of using a big moving van for a bath house. The policeman objected on the double ground that Cohen did not have a bath-house license and that he was allowing his van to be used as a dressing room for mixed parties.

GERMANS DELAY ACCEPTANCE OF NEW REQUESTS

Send Word That Reply, Which
Will Ask Modification, Will
Be Made Late in Day

Spa, Belgium, July 16.—The German delegates at the conference here have agreed in principle with the terms submitted to them by the allies and will ask for the explanation of certain articles in the allied note. They made this announcement just before entering into conference with the allied ministers this afternoon.

The German delegation had sent word to the supreme council this morning that the German reply to the allied ultimatum and coal deliveries would not be ready before 4 o'clock this afternoon. The Germans

are expected to ask modification of the terms of the protocol.

TWO N. P. TRAINS ARE NOW RUNNING IN TWO SECTIONS

Two Northern Pacific trains are now being run in two sections through Bismarck. Number one which arrives in Bismarck from St. Paul at 11:05 a. m. and number four arriving in Bismarck at 7:37 p. m. are the trains. The first section of each train consists of the regular postal, express and baggage cars with day coaches, diners, pullmans and observation cars. The second section are composed of day coaches, pullmans, diner and observation cars.

ALASKA FLYERS RESUME JOURNEY

Erie, Pa., July 16.—The three arm airplanes, which arrived here last night in their flight from Minneapolis to Alaska were being groomed preparatory to resuming their flight late in the day. Their next stop will be Grand Rapids, Mich.

FINDS BANKS ATTITUDE HITS AUTO INDUSTRY

Lee Cushon of Hupp Corporation Declares Motor Business Not Getting Square Deal

CITES GENERAL CONDITION

Solution Lies, He Said, in Policy of Financial Men Toward Business

Lee Cushon, district manager of the Hupp Motor Car corporation, is in the city conferring with Carl Pederson, local Hupp distributor. Mr. Cushon is going over the northwest in the interests of the automobile industry, paying special attention to the attitude of banks toward financing the truck and passenger automobile business.

While in the city he conferred with other distributors among whom were H. B. Loubek of the Loubek Motor company, and J. C. Anderson of the Lahr Motor Sales company.

"We are confronted," he said, "with an unfair discrimination on the part of the banks in financing the automobile industry. There has been a cessation of business because of the reluctance of banks to care for the legitimate needs of the industry."

The Hupp Motor Car corporation is sending to all distributors and dealers the following circular letter containing an editorial from the Charlotte Observer of Charlotte, North Carolina, which Mr. Cushon states sets forth the situation:

"Vive la deflation—Raus mit der automobille! Such appears to be the general import of a battle cry which is reported being raised at this time by some bankers, well intentioned, we assume, but misguided, it would appear in the light of its ultimate effects. To this type of banker infatuation and the automobile industry seem to be exposed. Deflation to them, it would seem, means kicking the stuffing out of the country's second largest industry. There is some stuffing there; nobody denies that. The business executives of the industry readily admit as much, as will the heads of the steel, textile and a number of other industries. But it is rather surprising that any sane man, much less a bank official should think all the stuffing is there. In fact, it is a question whether the automobile industry contains any disproportionate share of the inflation."

"The automotive industry, however, shows a disposition readily to plead guilty to its share in the general inflation and equally ready to bear its pro rata burden in the general readjustment and purging which must come. That it should, however, be assigned to the category of non-existent and made the target for a nationwide banking onslaught, it seems to us, is certain to wreak irreparable injury upon the commercial balance of the country."

"The automotive industry has nothing to fear from the big game, well informed, progressive banker. It is from those handier of the financial reins who have acquainted themselves with neither the magnitude nor the utilitarian character of the industry that harm is likely to come."

Attitude of Banks
"Last week while the cashier of the Citizens Bank of Squashtown was calling in all outstanding paper against John Smith, the local automobile dealer, J. P. Morgan & Co., was consummating the acquisition of a huge block of General Motors stock in a deal which aggregated millions of dollars. He holds two somewhat urgent positions. Here in the Squashtown bank or in a frenzy to get his out, while his New York conferees in an equal hurry to get his in—and in bulk. Somebody is wrong. Here are a few things that J. P. Morgan & Co. know:

"That there are approximately 7,500,000 motor vehicles registered in the U. S.; that last year the total output of passenger cars aggregated 1,657,000, representing a value of \$1,441,852,226; that during the same length of time there were 314,364 motor trucks manufactured with a valuation of \$123,326,621; that the total investment in automobile manufacturing plants is \$1,015,443,328, with an approximately equal sum invested in the establishments distributing the manufactured output; that the parts, tire and accessories business during the year 1919 amounted to \$2,168,334,584 and that the industry provides a livelihood for 5,000,000 people. They know further that carefully compiled statistics have shown that the average automobile purchaser is over 35 years of age, has more than \$6,000 in real estate, has an income of \$275 per month, buys a \$1,044 car, pays 44 per cent cash, pays 56 per cent in ten months and that his monthly payments average only 20 per cent of his income. He knows something too, of the identity of this average automobile purchaser. He knows that he is the contractor who uses his machine inspecting work in many portions of the city, a single day sufficing to do what formerly took a week. He is the baker who utilizes his light truck from one end of the city to another. He is the grocer whose commercial car pays for itself while the grocer is paying for it. He is the farmer who uses his passenger car to reach the city; his truck to haul fertilizer one way and his crops the other and his tractor to cultivate his fields. He is the dairyman whose motor vehicles meet the morning trains. He is the rural mail carrier who covers his route in a morning. He is the doctor whose passenger car permits of a wider radius of usefulness and a decreased rural death rate. He is the average American citizen, stable enough to deserve credit, energetic enough to want it and progressive enough to use it."

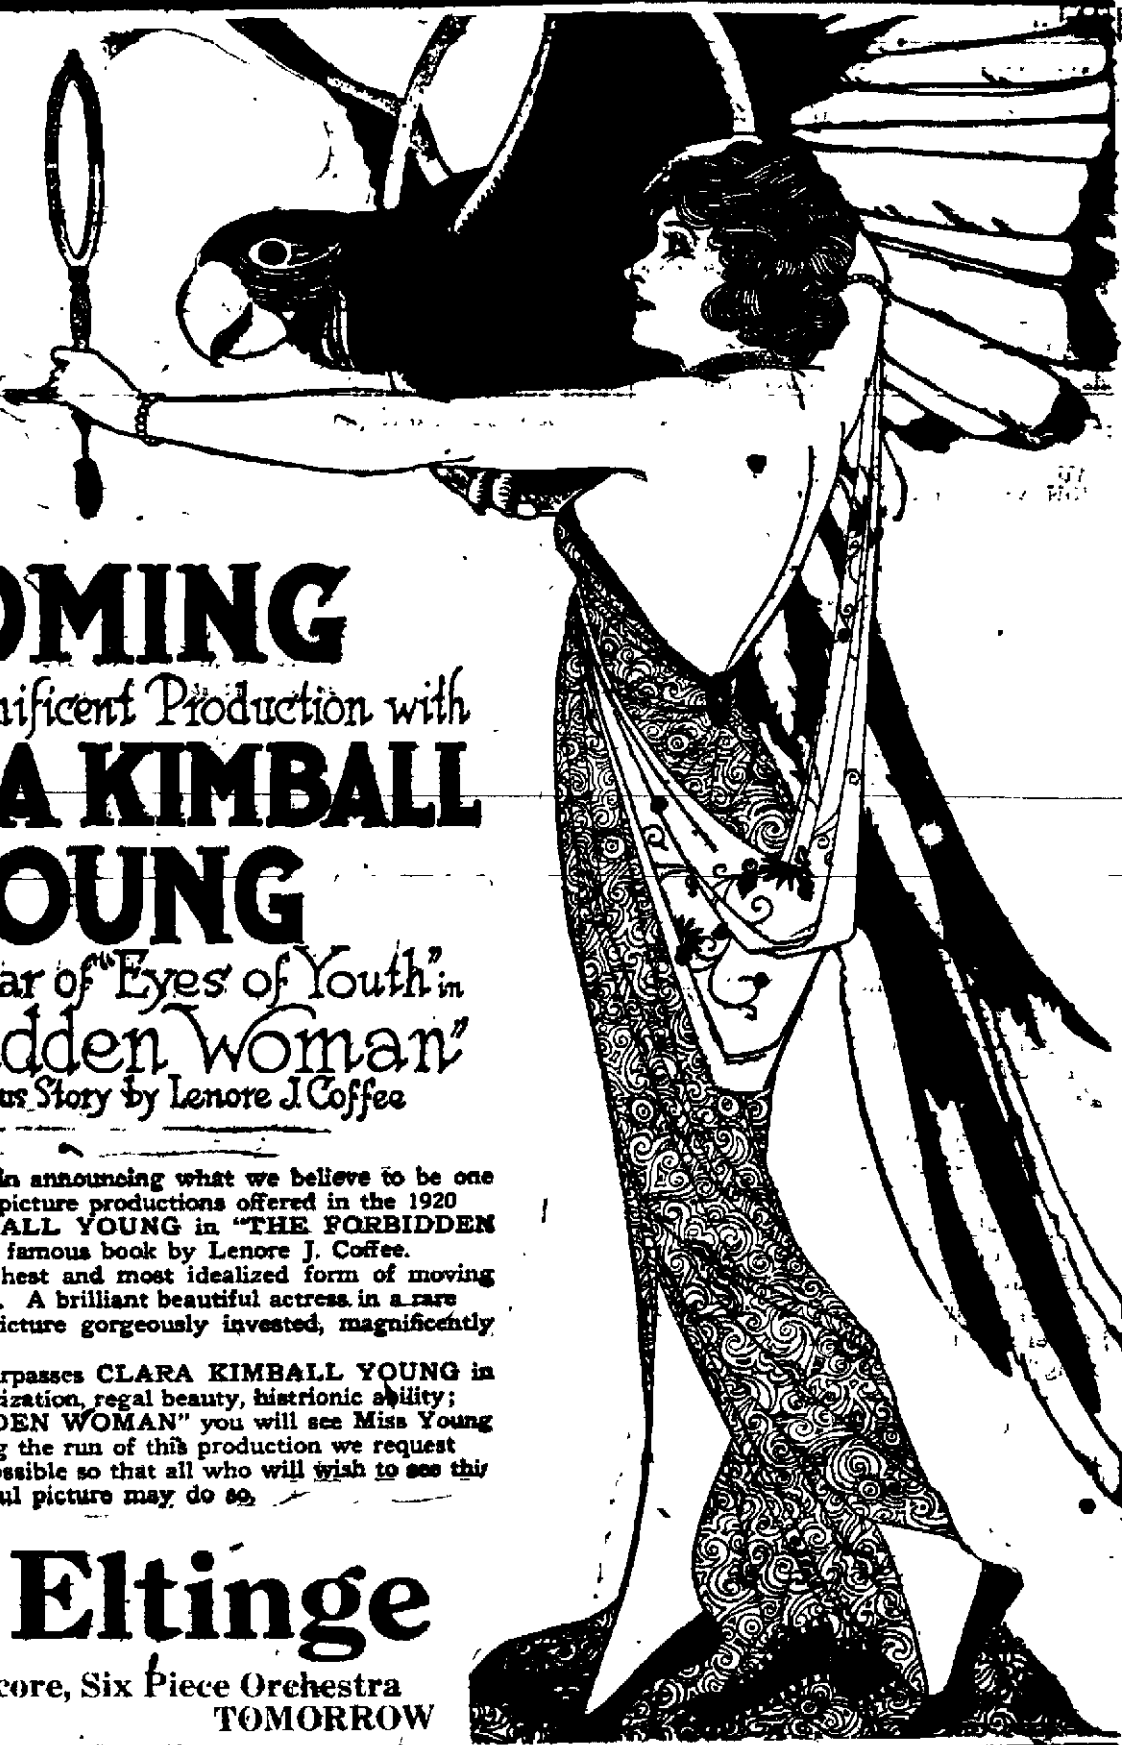

Permanent Fixtures
"All these things and many more regarding the industry, the well informed banker knows. It is the knowledge which makes for fair and considerate treatment of the successful automobile dealer at his hands. He knows that the article which he sells is a permanent fixture in our business life. So long as he conducts his business along proper lines and merchandises

that article properly, he will receive credit at the hands of thinking bankers. If he deviates from business standards, he should not and will not receive credit consideration at any bank."

"The Squashtown cashier will have various arguments should he be willing to define his position toward John Smith, whose paper he has just called. First of all he will aver that there can be no donation until an end is put to this promiscuous buying of 'placure' cars. He will probably call by name two or three automobile owners of his town, who, to his personal knowledge, are not in a position to purchase such a piece of property, neglecting however, to call of three or four or five hundred others who are. If Squashtown be in the south, he will most likely add that since the greater portion of automobile manufacturing plants are in the north and west, it means that there is an unending exodus of southern shekels in these directions. He fails to enumerate, however, that 750,000 sales of southern cotton go into automobile tire manufacture and millions more into cushion padding. Nor does he mention the untold yards of cotton cloth used in the manufacture of automobile tops, upholstery, mats and carpets; of the southern hardwoods which enter into body construction, nor of southern leather in cushion covers or southern wire steel in chassis construction. But the principal reason which he will give and will reiterate is that such curtailment of credit is necessary for reasons of 'deflation.'"

The Solid-dealer
"The Observer trusts that the automotive industry of the piedmont section will find no bankers of the Squashtown type in our section. Here, as elsewhere, there are perhaps firms engaged in the automobile business who have built upon the shifting sands and have no valid claim to credit consideration. This is the type of dealer, who rushed into what he called the automobile 'man' as men rushed to the Klondike in '98—and for the same reason. It looked like soft and corpulent pickings. Such firms have nothing in their makeup which smacks of permanency. They cannot hope to survive even the mildest crises. No banker, paid to safeguard his depositor's money, could conscientiously regard them as fit repositories for any portion of it. There is, however, another type and a vastly more numerous type of dealer, (and under this category are included both passenger car and truck, as well as accessory and supply merchants,) whose investment in and conduct of his business, entitles him to at least equal consideration with any other successful merchant. The banker who, either by shutting down upon their firm credit, or refusing to loan money to prospective purchasers of automobiles, without regard to financial status and simply because it is to be expended upon an automobile, is in his blindness, going to do an irreparable injury not only to the dealer but to the commercial development of the piedmont section."

"It is conservatively estimated that the automotive business done out of others."

COMING

Another Magnificent Production with

CLARA KIMBALL YOUNG

Brilliant Star of "Eyes of Youth" in
"The Forbidden Woman"
from the famous story by Lenore J. Coffee

We take great pleasure in announcing what we believe to be one of the finest moving picture productions offered in the 1920 season—CLARA KIMBALL YOUNG in "THE FORBIDDEN WOMAN," from the famous book by Lenore J. Coffee. Here is at once the highest and most idealized form of moving picture entertainment. A brilliant beautiful actress in a rare Parisian love story, a picture gorgeously invested, magnificently produced. No actress on screen surpasses CLARA KIMBALL YOUNG in brilliance of characterization, regal beauty, histrionic ability; and in "THE FORBIDDEN WOMAN" you will see Miss Young at her zenith. During the run of this production we request as early attendance as possible so that all who will wish to see this elaborate and beautiful picture may do so.

Charlotte alone, during the year 1919 aggregated \$65,000,000. This volume of business can be either increased during the year 1920 or so badly hampered that it will not assume such proportions again for a decade. The local banker has the opportunity of saving in great part, which it shall be."

Charlotte alone, during the year 1919 aggregated \$65,000,000. This volume of business can be either increased during the year 1920 or so badly hampered that it will not assume such proportions again for a decade. The local banker has the opportunity of saving in great part, which it shall be."

R. W. DUTTON IS NEW SECRETARY OF ABSTRACTORS

The final session of the North Dakota Title association was completed last night following the election of officers. A. W. Dennis, of Grand Forks, was re-elected president of the association. George H. Phelps, of Bismarck, was chosen vice-president. R. W. Dutton, of Bismarck, was elected secretary and R. L. Phelps, of Steele, was chosen treasurer. It was decided that the state convention next year would be held at

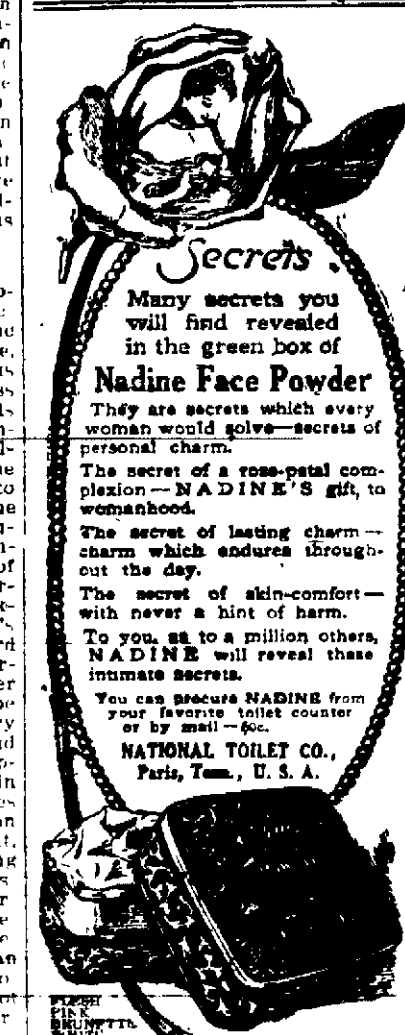

Minot. At this time they did not decide upon the exact date but it will be during the month of July.

American Bankers Association
The North Dakota members of the American Bankers association, the Trust company section, the Savings bank section, the National bank section and the State bank section are all holding their meetings to elect officers. The two North Dakota bankers who are officers of the national association are R. A. Irish, of the First National bank of Fargo, member of the executive council, and Frank Scott, cashier of the Merchants National bank of Valley City, vice president of the national body for North Dakota.

SAILORS FIGHT; ONE IS WOUNDED

Superior, Wis., July 16.—George Black, sailor of Buffalo, N. Y., was shot in the hip following a quarrel with another sailor here last night. Black received only a slight wound. His assailant is not known. The shooting, according to police, was the result of an argument over union matters.

FLOUR MARKET

CLASS STRIFE PRESENTS BIG RUSS PROBLEM

Harmonizing of Capitalism and Socialism is Big Problem, Says Premier

EDUCATE THE CHILDREN

Tokio, July 15.—Nikolai Lenine, Soviet Premier of Russia asserts that the most important problem confronting the soviet government today is how to harmonize capitalism and socialism. He made that statement in an interview in Moscow with the correspondent of the Nichi Nichi. The correspondent quotes him as saying: "For that purpose, the soviet drew up a special understanding which was made public in America some time ago. Some of the powers must take the concessions made as a sign of weakness and dispatched expeditionary forces to Russia. The result was a complete failure on their part, financially, military and morally."

Many Difficulties

He admitted that there were yet many difficulties to be overcome before the soviet government was established on a solid basis, but he believed that the hardest portion of the work had been already accomplished.

"It took Russia," he said, "no fewer than 30 years to pass from feudalism to capitalism. There is nothing extraordinary in that. Old systems may be overthrown in a day but it takes a long period to erect a new one. In fact, the longer the period involved, the surer will be the basis of reconstruction."

Depends on Education

"The development of a state," Lenine declared, "depends very much upon the education of the rising generation and it is the policy of the Russian soviet to pay every possible attention to the training of the youthful mind."

"In regard to the economic prospects of new Russia that is being constructed, we believe that efforts should be directed first of all to the destruction of the position of landowners in Poland. This is an essential preliminary to the establishment of a permanent peace and therefore to the improvement of economic conditions."

SECOND SNOW IN 30 YEARS

Buenos Aires, July 15.—This city, in which most of the houses are without heating accommodations, to day experienced its second snowfall in thirty years.

Bismarck, N. D.

DARING BRITON'S TRIP TO DEATH OVER NIAGARA FALLS IN BARREL TRAGICALLY TOLD BY PICTURES

"SO LONG" CRIED STEPHENS AS HE ENTERED CASK

Riverman's Wife Will Send Family Testament He Read Before Start

Niagara, Ont., July 15.—"I'll not say 'Good-bye,' only 'So-long!'" Charles G. Stephens had picked up this "Americanism" as it was his last word mumbled through the oxygen mask bound across his mouth.

Between the straps his wrinkled face smiled. His bold, blue eyes were fearless.

Like a grotesque land turtle, of red-stripping, the barrel lay by the river bank.

Stephens pulled his head inside. "Red," the riverman, screwed the cask shut with stubby fingers—quick and tremulous.

The tiny gas launch pulled the barrel out 700 feet. "Red" stood in the bow, banged the cask three times and cut the rope.

The river took the barrel. Swiftly it was borne in twisting circles thru the red morning mist.

"Seven-fifty that," said the man with the stop watch and snapped it shut.

Shooting Falls

Thus "Prof" Stephens, 58, barber of Bristol, Eng., went to his death "shooting the Horseshoe Falls."

Stephens and his party had dashed out of Toronto at midnight fearing some last moment opposition from the authorities.

At daybreak they reached the spot where "Red" and the cask were waiting.

"Red's" wife had given pillows from her bed to pack Stephens in his barrel. The brave old Briton had smiled his reassurance.

She was on the bank, twisting her fingers and dabbing her eyes with her apron long bobbed from sight.

Barrel had bobbed from sight.

Kept Testament for Family

She had kept the pocket Testament

from which Stephens read the line: "Cust thy bread upon the waters; for thou shalt find it after many days," just before he crawled into the narrow cask.

She will send the Testament back to the little cottage in Bristol, Eng., where Stephens' grief-stricken wife and 11 children are mourning.

"My wife wanted to come with me," Stephens told me before he died. "She couldn't on account of her asthma."

TOP—Gas launch starting to tow cask, with C. G. Stephens strapped inside, out into the river above the Falls, where it was cut loose. LEFT—Stephens adjusting his clothing and straps on the river bank, just before entering barrel. BELOW—The spot (arrow) where the daring Briton was carried over Horseshoe Falls, and (inset) the last portrait of Stephens, snapped just before he entered the cask.

New York July 15. Senor Abela do Arias, wealthy merchant of the republic of Colombia, did not know that the immigration laws of this country forbade the entrance of any person who was mentally ill when he laid plans to bring his daughter Senorita Felisa to this country to be treated for an ailment with which she was afflicted as a result of typhoid fever.

Neither did he know that his efforts to have the strict interpretation of the law softened by a little humanitarianism and good sense would result in an official blunder which would obtain the release of Felisa and leave her sister, Senorita Soledad, who is quite all right in all respects in detention. Such are the facts, however, which come from Ellis Island today.

Senor Arias arrived in New York around the first of July and despite the plea that he brought his daughter Felisa to New York solely for medical treatment, was unable to induce the immigration authorities. The law read so and that was all there was to it. She must be detained on the island and her sister Soledad must stay with her as an attendant.

He appealed his case to Washington but the action of the local authorities was upheld.

Never despairing that it was only the letter of the law and not the spirit which was holding his daughter Senorita Arias, he appealed to the Columbian Consul General at Escobedo and then to the Columbian Minister at Washington, who took the matter up with the state department.

After much interchanging of petitions and requests from one department to another the Department of Labor sent word that Senorita Felisa be paroled in custody of the Consul General, but said nothing about her sister. The result is that while the sister who is said to be ill mentally, has been released, the one who is mentally sound is still held at Ellis Island.

Young Lady Would Shoot the Falls

Niagara Falls, N.Y., July 16.—There is another person, this time a young lady who would "shoot" the falls of Niagara in a barrel, according to a note received by Mayor Thompson in the morning today.

The young lady gave her name and

GERMAN TRICKS ON NORWEGIANS BRING CHARGES

Official and Unofficial Inquiries Stated Into Charges of German Exporters Method

PLEAD EXPORT DUTIES

Christiania, July 15.—Norwegian business men have protested to the Berlin government against alleged trickery of German commercial concerns whose failure to deliver to Norwegians goods bought and paid for started official and unofficial inquiries which led the Norwegians to believe the delinquencies were deliberate.

Commercial intercourse between Norway and Germany had been steadily increasing, due to the low exchange rate on German money, until recently when a number of Norwegian concerns were notified by the Germans with whom they had placed large orders that the merchandise could not be delivered because "the government had placed special export taxes which prohibited exportation at the prices at which the goods had been sold."

Demand More Money

The Germans are said to have demanded additional sums ranging from 50 to 100 per cent of the prices they had quoted before they would fulfill their contracts.

The Norwegians frequently were compelled to pay the additional sums, having contracted to sell elsewhere the German products. However, complaints that Germans were using this method to evade the unfavorable rate of exchange became so frequent that Norwegian commercial organizations made official representations to Berlin, and it is said the Berlin government issued a statement that official cognizance would be taken of sharp practices by German business men in their international dealings. The government denied the export taxes complained of.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck and arms, and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates.

LANGER FORCE IS REDUCED BY NEW LAW

The office force of William Langer, attorney general, has been reduced by two assistant attorney generals in conformity with the law effective this month, passed by the legislature after Langer broke with the heads of the Nonpartisan league.

The two assistants who left were Caleb Haines, who is now with a Bismarck firm, and Grant Martin, who is taking post-graduate work in the Chicago university law school.

F. E. Packard and E. D. Cox remain as the two assistants permitted by law, and Albert E. Shoemaker remains as attorney handling land department business.

The licensing department was to have been taken away and given to the state sheriff but because of failure of the state sheriff law in the referendum, it remains in the attorney general's office.

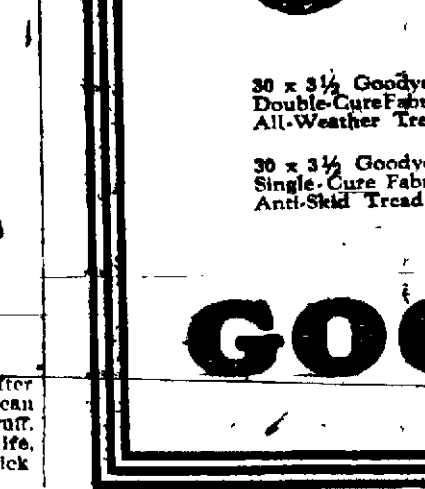

GRONNA'S RACE COST \$804.50

It cost Senator A. J. Gronna \$804.50 to make the race for the republican nomination in the primary, according to his expense account, which is on file with the secretary of state today.

Howard Wood, Nonpartisan league candidate for lieutenant governor, whose statement also was filed after the bulk of the statements were in the hands of the secretary of state, expended \$150.00, he reported.

Stops Hair Coming Out: Doubles Its Beauty.

Caring for baby During Hot Spells

Be watchful of food and keep bowels open, with Dr. Caldwell's Syrup Pepsin

THE young mother soon learns from experience that summer days are often days that try her patience. The heat makes baby peevish, restless and cross. Foods that in colder weather were easily digested, now seem to cause distress.

Whether the milk or the cereal is at fault, or that the bowels are constipated, there is nothing that creates greater discomfort in the summer than constipation. It heats the blood and causes nervousness, headache, fever, colds and a host of minor ills. In these little ailments it is always well to start a laxative and give half a teaspoonful of Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin, and the most ideal medicine you can give a baby. It is mild and gentle in action, never grips and never cools.

Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

Ride on Goodyear Tires in That Sturdy Small Car of Yours

It surprises certain users of small cars to find that they can obtain Goodyear Tires at a first cost ordinarily not greater, and sometimes less, than that of other tires.

This initial value, as well as the very low final cost, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to 30x3, 30x3 1/2 and 31x4-inch sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell, or Dorr take advantage of the opportunity to enjoy real Goodyear value and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at the nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly castings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag

GOOD YEAR

The Saving
is "as plain

STILL PICNIC FOR FARMERS HUGE SUCCESS

Speeches Combined With Races and Good Eats to Make Big Time for Large Crowd

REFRESHMENTS POPULAR

Pony races, foot races, eats, dancing and speeches were the order of the day yesterday at Still, the occasion being the seventh annual picnic of the Estherville local, Farmers' Educational and Co-operative Union of America. The festivities are always held on July 15 and the day is set aside as a holiday by the entire community surrounding Burleigh county's famous "Farmer City."

The program opened with two talks, one by George N. Keniston, secretary of the Bismarck Commercial club, and the other by F. J. Bonnie, Bismarck representative of the American Grown Flax Fibre Operating Corporation. Mr. Keniston talked on community development and outlined a program of progressive co-operation between town and country.

Explains Flax Process
Mr. Bonnie explained the process by which flax straw, otherwise largely waste, is converted into valuable fibre and predicted a great growth in this industry. North Dakota is the banner flax producing state of the nation, he said. More than twenty-three million tons of flax straw since the first pioneers came here has been burned, he declared. Mr. Bonnie said his corporation was planning to greatly increase the capacity of its Bismarck factory.

The sport events were followed with close interest and there were many exciting finishes. Herman Engstrom and Oscar Fosberg were members of the committee in charge but Mr. Engstrom could not be present and Victor Anderson acted in his place.

Winners of Events
The winners in the events were as follows:

Pony race—L. Brown, first; Bert Hedstrom, second.
Horse race—Henry Strom, first; Clifford Scott, second.

Girls, under 10 years—Mabel Ashlock, first; Ruth Hedstrom, second.

Boys, under 10 years—Sheldon Brooks, first; Marion Brooks, second.

Broad jump, record 8 ft. 6 in.—John Vollum, first; Alfred Fosberg, second.

High jump—Cecil Mount, first; Albert Vollum, second.

Men's race—Cecil Mount, first; Albert Johnson, second.

Boys, between 10 and 15 years—Fred Brooks, first; Clifford Richards, second.

Girls, from 10 to 15 years—Juanita Bradden, first; Winnie Malone, second.

Dance Concludes
The refreshment stand was well patronized during the afternoon and evening. Those in charge were: Edgar Thompson, Alta Thompson, Lawrence Perkins, Jenny Brooks and Bert Hedstrom.

J. M. Thompson and Victor Anderson were in charge of the speaking program.

The dance in the evening was given under the auspices of the Still Athletic club.

Follow the signs to Elm Park. Open Monday 3:00 P. M.

CITY NEWS

Business in Mandan
Judge J. C. Davis was in Mandan yesterday attending to business affairs.

Wilton Visitors Here
Gabriel Thor, and Oscar Backman, of Wilton, are in Bismarck today attending to business affairs.

Food Sale
The Ladies' Aid of the Swedish Lutheran church will hold a food sale at the gas office, corner Broadway and Fifth St. tomorrow afternoon. Home baked goods of all kind will be on sale.

Visit in Fargo
Mrs. W. R. Davis and daughter, Thelma, will go to Fargo tomorrow morning where they will spend a few days visiting Mr. and Mrs. Lloyd Heston, formerly of Bismarck.

Leave Hospital
People leaving the local hospitals today and yesterday: Mrs. William Knoop, Stanton; Mrs. K. A. Nepestad, Oakes; Joe Dougherty, Wilton; George Haney, Halliday; Mrs. J. D. Wilkins, Houston; and Mrs. Sadie Henderson, Sentinel Butte.

Crowd at Dance
A number of ex-service men were among the large crowd which attended the dance given at Fort Lincoln last night. O'Connor's orchestra furnished music. Many people from and in the vicinity of the Fort were present.

Former Judge Here
Former Supreme Court Justice Fisk of Minot and Geo. Walker, his son-in-law, are in the city today on business. They report crops in the north section of the state to be in ideal shape. They motored back to the Magic City Friday afternoon.

Here for Funeral
Chris Eken, of White Bear, Minn., formerly a local resident, was here today, having been called here on account of the death of his father-in-law, M. Spangberg of near Wilton. The Spangberg funeral will be held Sunday.

Enter Hospitals
The following patients entered the local hospitals this morning: (Clay) McCoy, of Beach; Marthou, of Lisheron; Coal Harbor, Franklin; Brumard, Hebron; Mrs. C. F. Forbes, Washburn; Miss Christine Huber, of Bismarck; and Mrs. C. A. Wilkinson, of Bismarck.

ELTINGE
The first carload of Ukrainian wheat to be received from Russia, since

the war, was used in the production of "The Forbidden Woman" at which Clara Kimball Young is starred.

Following the collapse of Russia, a small supply of this very valuable finishing wood was rapidly exhausted in this country and replacement could not be made for any amount of money. Recently a cargo was secured from one of the districts of Russia where some semblance of order has been restored by the white guards and from this cargo the Garson studios secured the first carload to be used for motion picture purposes.

In "The Forbidden Woman," one of the delightful features will be found in the sets which will very probably be the most beautiful and costly ever given to the motion picture public.

All in all the details of production in this picture surpass any previous efforts at the Garson Studios in Los Angeles. Miss Young will be seen here in "The Forbidden Woman" at the Eltinge tonight.

DEATH CLAIMS

M. SPANGBERG

AT AGE OF 80

Magnus Spangberg, one of the most respected citizens of Burleigh county, died Wednesday night at his late residence six miles southeast of Wilton after a lingering illness. The deceased was 80 years old and had

been a resident of this vicinity for many years.

The funeral service will be held Sunday, a brief service will be held at the Spangberg residence at 10 a. m. and at 10:45 the funeral sermon will be given in the Swedish Lutheran church.

DR. S. R. SMYTH

WAS CHOSEN RED

CROSS CHAIRMAN

At the meeting of the executive committee of the local chapter of the Red Cross held this week, Dr. S. R. Smyth was elected chairman to succeed Rev. George Buzzelle, who resigned to go to Minneapolis. W. L. Parsons, county superintendent of schools was chosen a member of the committee to fill the vacancy made by Mr. Buzzelle. H. P. Goddard was chosen vice president.

A number of important topics were discussed at this meeting. The members considered the advisability of securing a social worker to be connected with the organization. He would be in the most part among the younger people of the city. Dr. Smyth's election was temporary and he will act as chairman until the next regular meeting of the chapter.

Follow the signs to Elm Park. Open Monday 3:00 P. M.

THE STATE'S OLDEST NEWSPAPER
(Established 1878)

WHAT'S WRONG?

George E. Morse, after more than 40 years of feeding experience on his 500-acre Iowa farm, has decided to quit the meat-producing business.

For long Morse has been fattening 1,000 steers yearly. That means quite a few beefsteaks and roast ribs for many city meat eaters. And Morse admits that he made a "fair profit out of the fattening." But that was in former years. Now, he insists, he can't remain in the business because there isn't a large enough margin of profit. He says he has to pay too much for feed and doesn't get enough for the fattened product he drives into the livestock yard.

This in face of the fact that city consumers are paying the highest ever prices for beef!

What's the matter? Here's an experienced beef producer unable to stay on the job of producing beef because prices he gets are too low. Here are millions of meat eaters paying more for beef than they paid before; than they paid in the years Morse admits were profitable to him.

What's wrong?

CHINESE LAW

Chinese cats may have the usual allotment of nine lives, but, legally at least, man has but one in the celestial republic.

"If an offender be sentenced to more than one sentence of death, only one sentence can be enforced," says the law of the land.

That's fair enough, and simple, too.

Like unto it:

"When an offender is given more than one sentence of life imprisonment only one sentence can be enforced."

But Chinese law is not all "to laugh."

It might not be such a bad idea if some of our American courts read and consider not too lightly the "four spirits of justice," enunciated by the Chinese supreme court.

"First spirit of being independent and bald. Second spirit of being patient and painstaking. Third spirit of being hardworking. Fourth spirit of setting a good example."

Do the tablets of Moses, the tomes of Blackstone and the records of contemporary courts say more than this?

AFTER SCHOOL DAYS

What about the children who have left school this summer for the last time?

Approximately 1,000,000 boys and girls between the ages of 14 and 16 years will go into industry this summer and fall, having finished their schooling when the doors closed in June.

The U. S. Children's Bureau has made a study of what becomes of these children each year. It finds that only a few receive help in finding suitable openings in industry. This is because parents do not know what opportunities are open for their boys and girls; or how to go about finding them, or what is the best thing for a child to do.

The majority begin an aimless search, making the rounds of factories, shops and offices.

"More than nine-tenths of them," says Julia Lathrop, head of the Children's Bureau, "go into 'blind alley' jobs that require no skill and offer no opportunity to get ahead. Some of them find work for which they are physically unfitted, sometimes to the permanent injury of their health."

What is the remedy?

The Children's Bureau, as a result of an exhaustive study just completed, recommends that there be created organizations in the schools all over the country, to tell children what and where the jobs are, and what training and ability are required to fill them.

States and cities should have placement bureaus working in co-operation with the schools, to place and supervise working children, including provision for further training through compulsory day-time continuation classes to train the boy or girl in the actual processes of the industry he or she has entered.

PENNY FOR THE PEOPLE

Ninety-three cents out of every dollar appropriated by the United States government for 1920 goes to pay for war—past or future, while only six cents are used for primary government functions and public works together.

No less than \$3,855,482,586 out of a total appropriation of \$5,686,005,706 must be applied to expenditures arising from recent previous wars. This is 67.81 per cent of the total appropriations for 1920!

But that is not all. To that enormous sum must be added \$1,424,138,677, appropriated for the up-

keep of the war and navy departments for this year. That is another 25.02 per cent of the total appropriations. Together, these sums make up 92.83 per cent of all moneys appropriated for 1920.

For the primary functions of the government—legislative, executive and judicial (except the postoffice, which is self-supporting), the Interstate Commerce Commission, the Federal Trade Commission, as well as public buildings, river and harbor improvements, reclamation, national parks, rural roads, the total appropriations reach only \$349,290,782, or 6.16 per cent of all moneys appropriated.

And for research, educational and development work, the pitiful sum of \$57,093,661, or 1.01 per cent of the total, is appropriated for this nation of 105,000,000 people.

Imagine what advances could be made in science, education, the improvement and happiness of the nation if one hundred cents out of every dollar could go into the work that now gets one cent!

PAY FOR SERVICE

Two things should govern all dealings with the railroads:

1. GOOD SERVICE—Honest, courteous, economical, highly efficient service, by the railroads to the public.

2. A SQUARE DEAL—Rates high enough to pay for that service and enable the roads, rightly managed, to pay a reasonable return to their owners on the actual investment, and no more.

Hearings on the rate increase have closed at Washington. Within two weeks the Interstate Commerce Commission expects to announce its decision. Higher rates are certain, perhaps enough higher to add \$2,000,000,000 a year to railroad income. Part of it may be spread over passenger traffic.

Either way, the consumer pays the bill. The consumer is you. The bill starts at \$19 a head, for each of you. It is multiplied by three, at least, before it reaches you in the price you pay for things at the store. That makes it \$57 per head, or \$285 per family, every year. That is \$5.48 out of the weekly pay envelope, every week.

All right. Pay it willingly. Good service comes high, but it is always worth what it costs.

The United States can't march on, crippled in both legs by this handicap of utterly inefficient, demoralized railroad service. Industry is limping; home building operations are halted; coal famine threatens. The breakdown of the railroads is the primary cause.

But remember also, and always, that America is entitled to this good service at the lowest possible price. The United States gives to the railroads certain peculiar, very valuable privileges. It guarantees to them, absolutely, a reasonable return on their value.

The same law that carries the guaranty also demands "honest, efficient and economical management."

Let any man speak long enough, he will get believers.—Stevenson.

Former Director General of Railroads McAdoo ran into an open switch.

A quantity of sugar has been found in a freight jam. And the railroads have a monopoly on jams.

Sugar was first cultivated in India. Then we must be paying import tax from about 7 B. C.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinions of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

TEACHERS AND UNION AFFILIATION

The National Educational Association in session at Salt Lake City recommends that teachers do not affiliate with labor unions nor with any religious, political or economic group. The admonition is as timely as it is wise.

Labor unions of necessity represent group interests. In order to promote their group interest they have exhibited a rather militant form of self-assertion instead of emphasizing a co-operative and humane type of democracy.

But education in a republic is founded in the idea of co-operation. This is the essential nature of a good school. Its organization is co-operative from top to bottom. Leading educators sense the fact that the schools must not be degraded to promote class interests nor to set the teachers apart from the public.

Speed the day when teaching shall be paid in accord with its deserts. In the meantime the ideal of teaching as a profession calling for high idealism must remain unsullied. Only such a professional ideal of service will keep the public schools free from class interests and the teachers high in public esteem.

Progress for teachers lies not in the direction of class consciousness or class assertion, but rather in the idea of co-operation and public service. The high function that teachers perform for this nation makes money look cheap.

At this critical moment in the nation's history the service of the school teacher is above price. If this service is commercialized, the idealism of the profession will be tarnished without corresponding gain. If the professional ideal is maintained, the reward will follow in due time and public confidence will accompany it.—Minneapolis Journal.

THE GREAT AMERICAN FRONT PORCH

SENATOR HARDING ACCEPTS LEAGUE ISSUE CHALLENGE

Says President Forces Issue Upon Democratic Nominees—Harding Demands Reservations to Safeguard the Nation from World Powers Dictatorship—The Armenian Mandate

ROOSEVELT'S STATEMENT

Marion, O., July 16.—President Wilson's demand that the League of Nations be made the chief issue in the campaign, a demand in which the democratic candidates have acquiesced, was accepted as a challenge today by Senator Warren G. Harding, who declared the republican candidates were more than willing to make the election a national referendum on the question of whether this republic is to be surrounded by European quarrels.

Governor J. M. Cox will not be permitted to "soft pedal" the league question. He is trying to do this, in the opinion of congressman Nicholas Longworth of Cincinnati, who, with Mrs. Longworth, visited Senator Harding.

Senator Harding takes the Columbus dispatches, describing the Cox-Roosevelt conference of Monday and calls attention to this statement: "Governor Cox left it to the vice-presidential nominee to make known the conclusion reached."

Wilson Forces Issue.

Authorized to speak for both of them, Mr. Harding said. The vice-presidential nominee stated that he considered the league of nations one of the dominant issues of the campaign, not only in the east but in the west. He expected to make his campaign chiefly on the league of nations issue.

Senator Harding then proceeds to clarify the situation on this basis. "So we have complete proof that President Wilson has won and forced acceptance of his paramount issue. The party machinery has been taken over by the Tammanyites of New York, Illinois and Indiana, but President Wilson has forced his issue on them. He has but one concern, and that is the vindication of his foreign policy, first by his party, later by the country."

Part in 20 Wars Seen

The senator went on to show what a democratic victory would mean. "The democratic campaign," he said, "is going to harness the party absolutely to the administration policy of ratification without protection for American interests. Should the democrats win, the league would be ratified and America would become at once a party to the 20 odd wars now going on in the world. European leaders have repeatedly explained that it is impossible for the league of nations to function properly so long as the United States has not

ratified. The obvious implication is that when the United States ratifies, the league will proceed to settle up these matters, to enforce its authority in the conflict between Poland and Russia; to settle the Adriatic troubles, compel peace between Turkey and Greece, assume responsibility for the pacification of the whole Near East and Middle East.

All this cannot be done unless the league employs force. America would have to contribute its army and navy. President Wilson has urged acceptance of a mandate for Armenia, which the Harbord mission found would require us to employ a great army and pour out money by hundreds of millions. Congress overwhelmingly refused and the country has sustained it so insistently that even the Sen. Francisco convention did not dare endorse the mandate. Yet that mandate would hardly be more than an intimation of the many world flung conflicts into which America would be projected by ratification of the league without rigidly safeguarding reservations.

Demands Reservations. Senator Harding demands the reservations protect America. He accepts the administration challenge in these words:

"The president demands a campaign on this issue. The democratic platform makes the issue paramount, and finally the democratic candidate unanimously acquiesces. The score of more of democratic senators who voted for the Lodge reservations are repudiated, the real opinion of the American nation is flouted because the president insists on his issue regardless of cost or consequences."

The republican party and candi-

dates gladly accept the challenge. We are more than willing to make the election a national referendum on the question of whether we shall have four years more of democratic readiness to surrender this republic."

HEALTH ADVICE

BY UNCLE SAM, M. D.

Health Questions Will Be Answered (If Sent to Information Bureau, U. S. Public Health Service, Washington, D. C.)

GASTROPTOSIS

A correspondent who writes that she has been told she has indigestion of the stomach asks whether the condition is serious and whether it can be cured. She also wants to know more about the nature of the ailment.

A satisfactory explanation of the nature and cause of "gastroptosis," as the condition is termed, has not yet been discovered. The condition is three times more frequent among women than among men, the difference being ascribed to tight lacing and to child-bearing.

Gastroptosis may exist without producing any symptoms. In other cases there are "nervous dyspepsia," disordered appetite, a sense of fullness in the pit of the stomach, often shooting or burning pains in the stomach. There may be constipation or an opposite condition of diarrhea. The lower part of the abdomen is frequently distended and sometimes, in persons with very thin abdominal walls, the disclosed viscera may be recognized by their outlines.

Among nervous symptoms may be mentioned general weakness, depression of spirits, headache and fullness of the head, vertigo, cold feet and hands. There may be palpitation of the heart. A peculiar anemia is often present.

When there are no symptoms pro-

Made No Mistake When He Bought It Says This Farmer

"I have just been waiting for this opportunity to tell the public what Taulac has done for me," said Mathias Thomas, a prominent farmer of Little Canada, Minn., while in St. Paul, the other day. "I consider it my duty to suffering humanity to tell everybody I can about this medicine."

"Six years ago my stomach began troubling me," continued Mr. Thomas. "My appetite went back on me and my stomach got so bad that I could fix hardly anything agreed with me. Often what little I did eat would sour and bloat up with gas till I felt like I was smothering and could hardly stand it. I was always constipated, seldom got a good night's sleep and was losing weight all the time."

"I had read so much about Taulac I decided to try it. My appetite picked up right from the start and by the time I had finished the second bottle I felt like a different person. My stomach trouble stopped and I was no longer constipated. I could sleep better and had gotten back some of my lost weight, and now my appetite is so big I can hardly eat enough to satisfy it. I can eat fat meats, potatoes, just anything my appetite calls for, which I haven't been able to do before six years. When I say Taulac is the best medicine made I am speaking from experience, for I have tried about all of them in my day. After what it has done for me I feel sure it will help anyone who gives it a fair trial."

Taulac is sold in Bismarck by Jos. Breslow, in Driscoll by N. D. and J. H. Barrette, in Wing by H. P. Hoffman, and in Strausburg by Strausburg Drug Co.—adv.

duced by the unusual state of affairs of course, no treatment is indicated. When the symptoms are due to displacement, mechanical means, and perhaps an operation are alone likely to be useful in restoring the organs to their normal situation. The former includes trusses, pads and springs, which must be adapted to each case after a careful study, by the instrument-maker, with the aid of the physician. Sometimes a simple broad bandage may be of service in relieving the symptoms; sometimes a suitable corset may be worn with success. At the present day, surgical operation is not infrequent and is commonly successful.

AS IT LOOKS TO THE INSIDE

By the Inspector

Washington, July 16.—Whatever good might have come from the war, that part in which men were mangled, their nerves shattered and their skulls broken open was considered the worst.

Yet even from those horrors the world will profit greatly.

Neuro surgery made the greatest advance during the war that it had made in the history of the world," declared Dr. W. L. Treadway, chief of surgery of the U. S. Public Health Service. It taught us how to do things that we couldn't do before. In fact, the experience during the war absolutely revolutionized surgery."

The very best surgeons of the world were on the battlefields, and they got more experience than they had ever been able to obtain before. In days past, they had experienced on animals and during the war they had men to practice on. The best brain and nerve surgeons got together and studied what to do in each given case. Their aim was always to save the patient, but, of course, this wasn't always possible.

But when one man died when a certain course was taken, it was easy to see that that was not the proper method of treatment; when one got well, the same method was used on others. Nothing that had happened in history before had made this possible.

And the best thing about it all was, this wonderful experience became the property of all mankind. In the case of the United States, army and navy surgeons and those of the U. S. Public Health Service were in on the ground floor. They were assisted by the able specialists in the world as a result all the able doctors who applied themselves during the war were turned out as great surgeons.

And surgeon General Cumming has established researches in neuro-surgery in relation with the work conducted by the military establishment with headquarters at the U. S. Public Health Service hospital No. 38, New York. All information obtained through this research will be the property of the government, and for the benefit of all surgeons and the people at large.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles. As Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

Merchant Financial Wreck

"I am a financial wreck because of the expense of doctors and medicine for my wife. She has been a chronic sufferer for 10 years. Some pronounced it gall stones. Some gastritis and some intestinal inflammation. I happened to read an ad of 'Merrill's Wonderful Remedy' and from the first dose my wife has steadily improved. It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince money refunded."

News of Sport World

EVENTS AND GOSSIP FOR THE FANS

BISMARCK IN FIRST DEFEAT, SCORE 3 TO 1

Valley City Profits by Errors of Team and Scores Three Runs in the Fourth

BIG CROWD IS OUT TODAY

(Special to The Tribune)
Valley City, July 16. There was every prospect of a big crowd being out for today's game between Bismarck and Valley City. The game yesterday, in which Valley City won by a score of 3 to 1, was one of the best games seen here in a long time and the fans expected another good game today.

The game yesterday afternoon was a pitchers battle until the fourth inning, which rocked Bismarck's hopes. Errors contributed materially to Valley City's three markers in this frame. "Lefty" Needham, who pitched for Bismarck, did not waver after that, however, and held the Valley City team scoreless the rest of the game. Bismarck scored one run in the eighth inning, but the rally fell short. Needham and Powers formed the Bismarck battery, and Skyock and Kaplan were the Valley City battery. Captain Dolly Elder was to send Anderson, of Leeds, or Padgett to the mound this afternoon, and Adams and Dennis were to pitch and catch for the valley team.

Bankers here attending the state association meeting swelled the attendance, and several Bismarck fans were present.

How They Scored
Valley City worked the bunting game in the fourth inning. Two bunts which were not fielded with speed enough to cut the runners down and errors by Hurley and Padgett, on second, helped the scoring. After one man was on base a long hit by a Valley City man drove him in.

Dolly Elder did not play in the game on account of a bad shoulder.

The game really should have been 1 to 0 in favor of Bismarck, barring errors.

The Bismarck team lined up as follows: pitcher, Needham; catcher, Powers; first base, Frankenhoff; second, Padgett; third, Cook; short, Hurley; left, Nordland; center, Roberts; right, Seibert.

CUP DEFENDER REPAIRED FOR ANOTHER RACE

Resolute Expected to Meet Shamrock Again Tomorrow in British-American Jousts

CAPTAIN NOT CHAGRINED

Sandy Hook, N. J., July 16.—Repairs on the cup about Resolute, whose throat halcyons parted in yesterday's race when victory over the Shamrock IV seemed well in hand and proceed rapidly today and there was every prospect that the defender would be in readiness for another joust in America's cup match off Sandy Hook tomorrow.

"We will complete our work of adjusting new halcyons today," said Robert Emmons, managing owner. A new metal gaff was to be slung on the Resolute and Capt. Charles Egan, of Adams, who was skipper, did not seem unduly chagrined of the accident which robbed him of a fine chance of victory over Sir Thomas Lipton's yacht.

A Toe-Hold
The green challenger must win two more races out of a possible maximum of four if she is to achieve Sir Thomas Lipton's dream of taking the bottomless trophy back to Britain. Resolute must win two out of four to retain the cup, which has been in possession of the New York Yacht club since 1861. The second race will start at noon on Saturday.

Resolute in Lead
Shamrock IV's victory was won in the face of what seemed certain defeat. Resolute had taken the lead at the start and held it by an ever-widening margin until, as she swooped within half a mile of the turning mark 15 miles from the start, spectators on the great fleet of pleasure craft saw her great area of bellying canvas silver and begin to sink, fluttering, down her mast. A sudden gust had snapped her throat halcyon and a second later the jaws of her gaff were shattered beyond repair.

S. D. COACHES GO TO SCHOOL

Brookings, S. D., July 16.—A short course for South Dakota high school coaches under the direction of Coach

Suits Cleaned and Pressed

THEY'VE GOT LEGS LIKE SPRINTERS; THEY'RE ARMS ARE THOSE OF GIANTS

Although America's two greatest hopes in the coming Olympics each weigh in the neighborhood of 250 pounds, they have the feet and legs of sprinters. This proves that all policemen don't have the famous big "flat feet." Very little of the weight of either is concentrated below the belt. The poundage comes in their massive chests and shoulders.

They give the appearance of being top-heavy, but small agile legs are even more necessary to weight men than to a sprinter. A real weight man has to move swiftly and from his legs he gets momentum that adds to the strength of his arms and shoulders. McGrath is the 36-pound weight world champion and Ryan throws the hammer.

Both spend much of their time training in running around the cinder path and they aren't slow, either.

Ryan is the more superbly built of the two. He is a typical Irish giant. McGrath has been forced to allow some fat to accumulate while he is taking care of his dislocated rib.

PAT RYAN and MATT MCGRATH

NEW YORK CLUB MUST GET COIN TO HAVE BOXING

New York, July 16. The Fred Fulton-Harry Wills heavyweight boxing bout, originally scheduled for this city next Thursday, has been transferred to Newark, where it will be staged on July 26. The inability of the International Sporting club to obtain a suitable arena, combined with the indefinite status of the new boxing law, caused the change.

It is rumored that Fulton is to receive \$25,000 for his end, and if this is true the prices of the tickets will surely have to reach a new high-water mark.

Johnny Dundee and Eddie Fitzsimmons, who appear in the semi-main bout on the same bill, will cost \$17,500. Dundee To Get \$10,000.

Dundee is getting a flat guarantee of \$10,000 and Fitzsimmons is to be paid \$7,500 for his end.

In the event of the club not being able to "carry on" when July 15 comes around, Dundee is to be paid \$1,000 for the trouble of preparing for the bout. What the others have been promised in the way of balm should something come amiss is not known.

Also the amount that Moran and Kenning and Britton and Thomas are boxing for has not leaked out, but surely the club has not stinted any of the men.

A Lot of Coin
For one thing, Johnny Dundee's end of \$10,000 has seldom, if ever, been topped, even in any of the great bouts with Leonard or Jackson. A lot of money, a lot of it!

How, now, if the club keeps up a gallop like that, can any other club hope to compete? There's a question for somebody to figure out.

BOXING BOUTS ARE PLANNED

New York, July 16.—Tex Rickard, boxing promoter, announced today he had leased Madison Square garden for a period of ten years. He plans to hold boxing contests there, and to rent the building when he is not using it himself to exhibitions political meetings and circuses.

GREAT PRICE PAID FOR COLT

Aqueduct, New York, July 16.—The highest price ever paid for a 2-year-old in this country was recorded here when Samuel C. Hildreth obtained Incense, a chestnut colt by Friar Rock, Rose of Gold, for \$125,000.

Incense has started twice this year and was successful on both occasions. He was bred in California.

TOO MANY FISH ALL IN ONE DAY

Ryder, N. D., July 16.—Following reports that two Garrison men caught 400 fish in Rice lake in two days, deputy fish and game wardens have posted signs warning fishermen not to take more than 15 fish from the lake in one day. The fish must be not less than 6 inches in length.

GIBBONS MATCHED AGAINST BECKETT

Minneapolis, July 16.—Tommy Gibbons has been matched to fight Joe Beckett, English heavyweight champion, at the Holborn Stadium, London, some time within the next two months, according to a cablegram received today by Eddie Kane, who handles the pugilistic affairs of the Gibbons brothers.

The cablegram is from James Kelly, a pugilistic promoter of London, and asks Gibbons' early acceptance of the terms proposed with the date to be settled within the coming week.

was the class of the 2:05 pace, winning in straight heats over the favorite, Esther R. the mare being drawn after finishing fifth in the first two heats.

NATIONAL LEAGUE

Chicago, July 15.—Brooklyn national-league hit Bailey hard in the tenth yesterday and won the final game of the series from Chicago, 4 to 2. The visitors bunched hits in two innings off Vaughn for their first two runs. The locals managed to tie the score in the ninth. Their rally in the tenth drove Marquard off the mound, but Smith stopped them. Score:

Brooklyn	100	010	000	2	4	9	0
Chicago	000	000	101	1	3	10	3

Batteries: Marquard, Smith and Elliott, Vaughn, Bailey and Killefer.

Pirates Take Fourth

Pittsburgh, July 15.—Pittsburgh defeated Boston yesterday for the fourth time, 9 to 2. In the ninth, with the score tied, Grimm tied with a hit and reached second on Caton's sacrifice. Schmidt was passed and Lee, hitting for Carlson, drove a single to center, scoring Grimm with the winning run. Score:

Boston	132	001	001	8	11	1	1
Pittsburgh	000	004	221	9	18	3	3

Batteries: McQuillan, Fillingim, Watson and Gowdy; Fonder, Meadows, Blake, Carlson and Schmidt.

Reds Lead

Cincinnati, July 15.—Philadelphia made a strong ninth-inning push against Cincinnati yesterday, and won 7 to 5. Score:

Philadelphia	100	130	002	7	12	3	3
Cincinnati	101	010	020	5	12	0	0

Batteries: Russell, Galloway, Wheat, Sallee, Eller, King and Allen.

AMERICAN ASSOCIATION

Milwaukee, Wis., July 15.—Middleton pitched wonderful ball after the first inning and Toledo won the opening game of the series, 6 to 2. Miller and McWhiney, who pitched for the home club each had one bad inning. Score:

Toledo	002	000	040	6	12	2	2
Milwaukee	200	000	000	2	4	1	1

Batteries: Middleton and McNeil; Miller, McWhiney, Reinhart and Guston.

Single Breaks Tie

St. Paul, July 15.—Scheiber's single, following two bases on balls and a sacrifice, drove in two runs in the sixth and gave Indianapolis a 7 to 5 victory over St. Paul yesterday. Gossett's home run with two bases and Riggert's circuit drive with a runner on were features. Score:

Indianapolis	100	004	000	2	7	11	3
St. Paul	101	300	000	0	5	11	1

Batteries: Rogge, Jones and Gossett; Griner, Williams and Hargrave.

LANGFORD WINS S. D. HONORS

Pierpont, S. D., July 16. Langford has won the championship of the northeastern part of the state. In the tournament held in Pierpont, in which several strong teams participated, the championship narrowed down to Langford and Pierpont, and Langford defeated Pierpont 8 to 2.

NEW TIPPLE TO INCREASE LIGNITE COAL PRODUCTION

The Washburn Lignite coal company is again hoping coal at its mine near Wilton, having abandoned the temporary tippie which was erected last winter.

A new steel tippie is now being erected, and the constructing engineer hopes to have it in working order by September 1.

When completed the tippie will be one of the most modern and up-to-date in the northwest. It is said, capable of handling 2,000 to 2,500 tons of coal daily. The bursing of the tippie last fall, the Wilton operators have been seriously handicapped in the production of coal.

FOUND GRAVE OF LIEUT. ROOSEVELT

Rhineland, Wis., July 16.—Alfred Lutz, of this city, formerly lieutenant of the 32nd division, has just received notice from the government that he is the recognized discoverer of the grave of Lieut. Quentin Roosevelt, northeast of Chateau Thierry. The grave was discovered in the early part of August, 1918, when the 32nd division relieved the 28th and took over the line at Surgy Hill.

The "Cheer-up" Drink

Brazilla

THE cheerful people you see with smiling faces and full of "pep" have been drinking Brazilla.

It is the best "cheer-up" drink you ever tried.

You drink a glass or two and you feel happy. A broad smile glows on your face.

There is exhilaration and good humor in every glass.

For a hot weather drink it can't be surpassed.

It is deliciously refreshing, cooling, energizing.

The flavor is that of blended tropical fruits, herbs and spices.

Try it at any soda fountain. Also bottled for home consumption. The syrup can be had in pint bottles for home use. Just as good with plain water as with carbonated water. Try it.

THE BRAZILLA COMPANY
Minneapolis, Minn.

What puts the "kick" in Brazilla?

There is a mysterious new cheerfulness ingredient in Brazilla. It is something that has never before been used in a fountain drink. It is NOT A DRUG. Can you guess what it is? To the first 50 people who send us the name of this ingredient and the best 50-word description of its nature, we will send a 16-oz. bottle of Brazilla syrup.

REBEL COUNTESS BOBS UP AGAIN IN IRELAND

Countess Georgina Markievicz, the notorious leader of the Sinn Feiners, addressing a meeting recently of the Sinn Fein "Flanna" annual commemoration. Since 1910 the countess has been jailed about four times, serving in all more than twenty-nine months. She fought in the Dublin rebellion dressed as a man and led the detachment of rebels that captured Dublin university. The countess is the first woman to be elected a member of parliament.

SINN FEINERS AND UNIONISTS CLASH

Belfast, July 16.—Two thousand Sinn Feiners and Unionists today had a fight in Lurgan over the capture of a man who is alleged to have participated in a recent raid on a mansion near Lurgan. Many persons were wounded in the fighting. A party of troops from Belfast arrived in the town and removed the man from Lurgan.

The trouble had its origin in a demand by the Sinn Feiners for the release of the man which the Unionists opposed.

SEEK MAN WHO STOLE \$150,000

Milford, Conn., July 16.—Police and highway traffic officers from Norwalk to New Haven are looking for a satchel containing negotiable securities valued at \$150,000, according to George E. Hudson, a stockbroker of Bloomfield, N. J., who reported the loss to the police here today. Hudson, with two others, came through Milford in an automobile. They said that after passing Norwalk they discovered the car door open and the satchel missing.
